TIM SHERBURN

Hey everybody, Tim Sherburn here. I perform the voices of Colin, Emily, and Buck.

Just wanted to send a quick, heartfelt thank you for your interest and support in our kickstarter project. I can't begin to describe how exciting it has been to be involved with this podcast. What started as a bunch of friends crowded around a shared microphone, has exploded in to an incredible adventure.

Not only do I get to work with some amazing voice talent, but I get to be a part of Shannon Perry's amazingly fun and zany Universe.

This project will help bring our OZ9 characters even more to life, thanks to the incredible artistic talent of Lucas Elliott. I met Lucas at Emerald City comic-con a number of years ago, and convinced Shannon he was perfect for creating our awesome character art. Now we are so lucky to have him aboard, as he can give physical form to our collection of space faring misfits.

Your contribution will help ensure he is compensated for his talents, and that we can create a high quality comic that you can be proud to add to your collection.

Thanks in advance for whatever contribution you can afford. And while Colin may be loathed to admit it, he...he and I and the rest of the OZ9 crew will be ETERNALLY grateful.
